ZOMBIE-ZOMBIE (from the author of Ant Attack !) !!! BATTLEZONE !!! GATECRASHER !!! STRONTIUM (The Killer) DOG

WE HAVE ALSO ADDED THESE NEW TITLES TO OUR PRODUCT LINE !!! ALL HAVE BEEN CONVERTED TO RUN ON THE TS2068 !!!

TRASHMAN for the TS2068 This is an exciting (Joystick Control) game - a hit in England for the Spectrum. You play the part of a Trashman just trying to make a living by emptying the trash cans put out into the Garbage truck as it slowly moves down the streets, you do have a time limit - but can get extra time for doing the little extras that housewives have asked you - watch out when crossing the streets - watch out for those dogs when you walk on some folks nice lawns ! - Many Surprises !! \$ 11.95

TRAVELS WITH TRASHMAN (The sequel to the above) - - Your mission is to go forth into the world and throw away all the trash. Quite a few places of interest can be visited, Germany, Hong Kong, France, Isreal, Spain, Samoa, and of course America - lots of action and good graphics - challenging and every bit as good as TRASHMAN, also, joystick controlled (or keyboard). \$ 11.95

NEWLY CONVERTED SOFTWARE FOR YOUR ENTERTAINMENT

CRITICAL MASS (Arcade)

An outlying system of the Terra Federation has set up an advanced anti-matter conversion plant on a centrally positioned asteroid to supply the local colonists with energy. A surprise attack by alien forces has successfully overcome the asteroid's defenses and the aliens are now threatening to self-destruct the power plant unless the colonists offer an unconditional surrender. The self-destruction process would effectively turn the power plant into a massive black hole that would wipe out the entire planetary system along with a number of nearby stars. Unconditional surrender offers an equally horrific prospect. Your mission is to infiltrate the enemy position and disable the anti-matter plant before the aliens achieve CRITICAL MASS.

SABOTEUR (Martial Arts Arcade Adventure)

You are a highly skilled mercenary trained in the martial arts. You are employed to infiltrate a central security building which is disguised as a warehouse. You must steal a disk that contains the names of all the rebel leaders before its information is sent to the outlying security stations. You are working against the clock, both in getting to the disk, and in making your escape. You must enter the building from the sea by rubber dinghy, and will then only be able to leave by the helicopter on the roof. You will have to find your way around the warehouse, making use of the guards' own weapon supplies in your struggle through overwhelming odds.

NEW ACCOUNTING SOFTWARE

ACZ GENERAL LEDGER - "A small business accounting system"

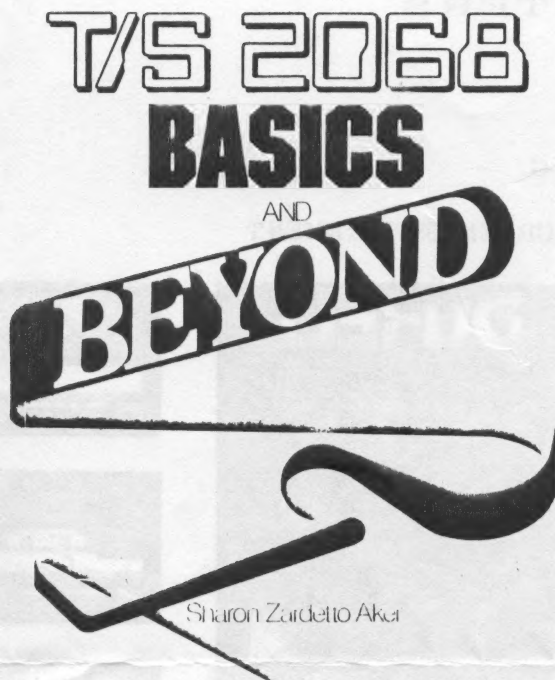

If you've been thinking your small business accounting could be done faster, more easily and economically with a T/S2068 - you're right! The ACZ GENERAL LEDGER is a complete ledger and financial reporting system specifically designed to meet the accounting needs of a small business.

The ACZ GENERAL LEDGER is a true double entry system that has the benefits of a manual ledger without the drawbacks. The program identifies transactions that do not balance and gives you the opportunity to make corrections. It will not post an out-of-balance transaction. Up to 150 named accounts, and up to 800 entries and accounts each month. Prints the following reports: Year-to-date Income Statement, Monthly Income Statement, Balance sheet, Trial Balance, Ledger Detail, Journal Entries, and Chart of Accounts. 20 page Instruction manual included.

T/S 2068 BASICS AND BEYOND

Sharon Zardetto Aker

THE BOOK YOU'VE BEEN ASKING FOR.....

Polish your BASIC programming skills with T/S 2068 Basics and Beyond.

Designed for beginning and intermediate BASIC programmers, this book offers a collection of tips and techniques that contribute to easier and better programming. You'll develop a working knowledge of the finer points of T/S BASIC—including many programming methods and commands not found in the Timex/Sinclair 2068 user's manual.

T/S 2068 Basics and Beyond offers over 120 short demonstration, game, and utility programs that show creative BASIC programming in action. Sharon Aker includes programs that can

- perform complex mathematical calculations
- generate random numbers
- use trigonometric functions
- make music and sound effects
- create graphics in over 100 colors
- coordinate sound and graphics and much more.

Both new and experienced programmers will benefit from the line-by-line explanations that accompany each program. And a helpful "Quick Tips" section can save you time, effort, and frustration when writing programs.

INTRACLEAN AUDIO & VIDEO RECORDER CARE SYSTEMS

Anyone who uses a tape recorder, even if only on a rare occasion and even if high-quality recording is not the primary goal, must accept cleaning the various parts along the tape path as a regular chore. The format of the recorder and its quality make no difference: Cleaning is a necessity to ensure good tape motion and to get the best record and playback performance.

After examining various cleaning systems and agents KNIGHTED COMPUTERS has chosen the INTRACLEAN SYSTEMS. We compared the price, quality, and ease of use in our choosing these products and firmly believe that you will be as pleased as we are with these products.

S-711 PROFESSIONAL HEAD CLEANER

This is the original state of the art, tape head, capstan and pinch roller cleaning solution. S-711 INTRACLEAN's® formulation of Halogenated Hydrocarbons is responsible for its patented lifting action which enables S-711 INTRACLEAN® to remove even the toughest tape oxide deposits, and because S-711 INTRACLEAN® does not contain any alcohol, there is no moisture content to contribute to pinch-roller "dry-out". In fact, S-711 INTRACLEAN® will rejuvenate the pinch roller, restoring that "like new" look and feel.

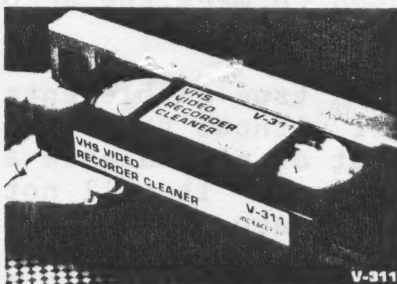

S-711 INTRACLEAN's® remarkable cleaning ability is just half the story. We are proud that S-711 INTRACLEAN® has received the most revered testament a product can receive - industry recognition. S-711 INTRACLEAN® is the tape head, capstan, and pinch roller cleaning solution used in the service departments of such distinguished manufacturers as Concord, Kenwood and Nakamichi.

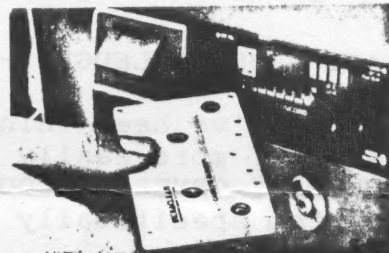

By far, S-711 INTRACLEAN® is truly in a class by itself.

V-311 VIDEO RECORDER CLEANER

INTRACLEAN has developed a special non-alcohol cleaning solution that is used in conjunction with our V-311 VHS Video Recorder Cleaner. This strong cleaning solution will remove tape oxides and other foreign objects with no harmful effects to the metal, plastic or rubber parts of the video recorder. The cleaning band of the V-311 video recorder cleaner is a non-abrasive material that moves easily across the tape path, gently lifting away contaminants from the video tape head, audio tape head, capstan, pinch roller and tape guides. The V-311 kit includes a VHS Video Recorder Cleaner and a 1/2 oz. bottle of our V-301 Video Cleaning Solution. Also available is the V-321 BETA Recorder Cleaner.

C911-A CASSETTE CLEANER

An automatic cassette cleaner is only as good as the cleaning solution it comes with. The INTRACLEAN® C-911 Cassette Cleaner is the only cassette cleaner that contains S-711 INTRACLEAN® professional head cleaner. The cleaning results are remarkable. Tape oxides and other harmful particles are removed from the tape head, capstan, and pinch roller. Plus, the S-711 will give the pinch roller new life and texture.

The C-911 is especially useful in the cleaning of autostand units when application of cleaning fluid and swabs may not be possible.

DEMAGNETIZER D-501

Whether you're a novice or an audio enthusiast, demagnetizing is an important step in recorder maintenance. Demagnetizing will remove "residual magnetism" that occurs with regular use of recorders. This residual magnetism will cause increased noise levels and loss of output levels.

Professional recording engineers demagnetize before every recording session.

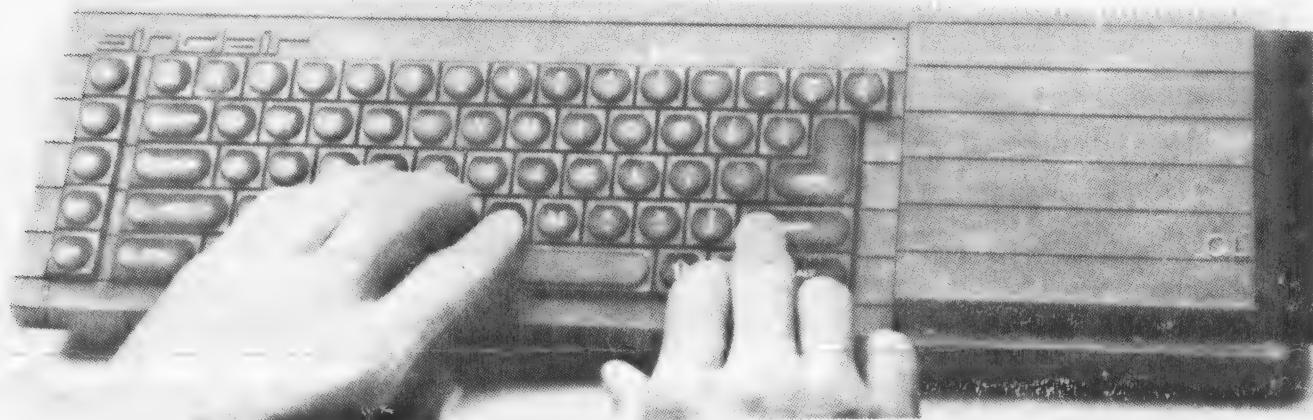

S-711 PROFESSIONAL HEAD CLEANER	CAT#1025	\$ 7.95
C911-A CASSETTE CLEANER	CAT#1193	\$12.95
D-501 DEMAGNETIZER	CAT#1194	\$21.95

LOTTO U.S.A.

It's easy to play Gail Howards' acclaimed Percentage and Wheeling System to give you better odds playing the lottery! Now with LOTTO U.S.A., you can gain a FIVE-HUNDRED PERCENT WINNING EDGE, using the same system that was used by Tom Mayer and the Diehards that helped them win biggest jackpot in the New York State Lotto40! There are a total of seven complete wheeling systems in the 2068 version, and you can choose to play based upon historical data (that you must enter), or get random picks... just the best random pick routine ever used in any version of this program. Does not use RND, but rather simulates putting a number of marked (numbered) marbles in a hat, and then having you pick one or more out of the hat (while the marbles are continuously being mixed). Then use your chosen numbers in one of the seven wheels. Later you can check for wins, and update historical data! Two versions are available for you. A compiled (FAST) version, and a BASIC listable version that operates completely (however very slowly). Output to a 2040 printer is provided. Completely Menu Driven. Separate documentation for each version. The documentation of the BASIC version is complete with author notes on variable use within the program.

Item # 1300 COMPILED VERSION \$19.95
Item # 1301 BASIC VERSION \$24.95

TIMEMACHINE

A revolutionary new BASIC COMPILER, TIMEMACHINE will turn your BASIC into super-fast machine code, running up to 200 times faster! Handles FLOATING POINT operations with ease like, SIN, COS, TAN. Compiles all basic except I/O (but the documentation tells you what to do about "SAVE, LOAD", etc. Strings and dimensioned arrays are allowed. NOTE: LOTTO48 for the 2068 was compiled with Timemachine quickly and easily by Ray Payne (Owner & Partner of Knighted Computers). The documentation that comes with Timemachine is super and should not be hard to understand - even for the novice. It can compile programs up to about 27K in size. Both 2068 & Spectra Version are on the same cassette for convenience.

Item # 1046 \$19.95

BASIC TOOLKIT

If you write programs in BASIC, you'll be happy to have a copy of this Toolkit on hand. It's completely machine language and can reside in memory along with your program. Toolkit operates very fast and it's easy to use. With Basic Toolkit you can renumber your program lines, list all arrays and their values, find and replace strings, even delete all lines that start with REM thereby cutting down on load time after your program has been fully developed. All just a couple keystrokes away. Get your copy today!

Item # 1107 \$9.95

THINK-TANK ADVENTURE GAMES

(for the intellectual folks)

MINED OUT

Two beautiful girls somehow got themselves trapped in the middle of a mine field (how that happened I don't know), but now it's up to you to get to them, and lead them out (you'll love the gratitude they'll show you if you succeed). But, wait, it's not over yet (but you'll wish it was!)... now you've got to get them home...and more problems come into play.. like a bridge that has some real bad sections (they seem to occasionally disappear!). Don't worry, the girls will follow you wherever you go. But can you do it! **GET YOUR COPY NOW!**

Item # 1072 \$9.95

XADOM (say-dum)

An arcade quality adventure game, but requires much thought, and maybe even drawing a "map" and making notes about different avenues of trial and error. Fantastic high resolution 3-D graphics & uses keyboard controls for moving characters. Multiple loading of different sections. On screen features include an inventory, score, power gauge, interactive sword fights as well as traps, treasures, monsters and wizards! Choose your own level of difficulty and speed!

Item # 1043 \$9.95

HOME AND BUSINESS SOFTWARE**THE WORX**

The Worx is a complete suite of personal organization programs which will help you make the most efficient use of your time and thoughts. A unique phone book, programmable calculator, Decision factoring, real time clock, Biorythms, Perpetual Calander, International time zones, and a superb manual. Both TS2068 and Spectrum versions on one cassette.

Item # 1213 \$19.95

PIXEL PRINT Desktop Publisher

Finally you can design and print your own customized Newsletters!!...and other documents using a wide variety of font styles and sizes, pictures, graphics, and layouts. A very versatile, well developed Desktop Publisher for your 2068. Prints out to your full size dot matrix printer (must be Epson compatible such as our Panasonic line of printers).

Item # 1193 \$19.95

PIXEL PRINT ICON PACKAGE

For use with the above, this utility package contains 3 programs and 102 Desktop clip art ICONS. You can use any of them in your publishing, enlarge them, design your own graphic icons and save them for later use, or modify any/all of the 102 already provided!

Item # 1121 \$19.95

ARCADE TYPE GAME SOFTWARE**LASERZONE**

Here's a great high-speed graphics challenge you won't find in any arcade (that we know of), but should be in all arcades. You must control two laser cannons--simultaneously to protect each other from destruction (& without destroying each other!). The enemy is fast and furious - with several different weapons... the awesome exchange of fireworks will test your skill, dexterity and logic. Joystick and/or Keyboard controlled.

Item # 1076 \$9.95

GRIDRUNNER

A superfast arcade game much like the arcade game Centipede (except you don't need a pocket full of quarters with you). Gridsearch squads run in line across each grid and quickly descend to the next - trying to get to the bottom (& your cannons). Knock them off in order, and quickly, and maybe you'll survive for the next squad. Hit the squad in the center & you'll have a harder time destroying them!

Item # \$9.95

TRAXX

A fast action packed game in grid format whereby you try to capture all four corners of the grid...succeed and you'll get 10 seconds to destroy the bugs. Nine levels of play make this game a real challenge for all ages and abilities of each player. Great family entertainment.

Item # 1081 \$9.95

CANADIAN ORDERS: Payment must be in U.S. Dollars. Canadian Postal Money Orders and Checks on Canadian Banks must include a check cashing fee of \$3.00 per check or MO. Include \$3.00 shipping & handling for small orders, plus additional postage and insurance for large orders.
